

We will open on January 3, 2022. We will be on 100% walk in only basis until February 14th We do take walk in's anytime throughout the tax season but please note that there is no guarantee you will see who you want by walking in without an appointment after February 14th. From that day forward, appointment times will be available, but I would **highly recommend that you schedule your appointment in January in order to make sure you get the date, time and your preferred Tax Professional before they are booked up. You do not need all your tax documents in order to schedule your appointment. You only need them the day of your appointment.**

When you file with us this year, your tax professional will need to know the following figures.

1 – The amount of stimulus payment you received back in March/April of 2021. The amount was \$1400 per person that you claimed on your tax return in 2019 or 2020.

2 – The total amount of monthly advances of the child tax credit that started in July and went through December of 2021. A letter will be sent from the IRS sometime in January giving you this figure as well.

Please make sure the above amounts are 100% accurate, because if they are not your tax return may be delayed for many months, maybe even until the end of the year as some clients had experienced last year.

New Appointment Program

All appointments can be made via our website at www.goldstardirect.com. The program we are using has changed from previous years. This year you will need to log in to your own secure tax portal account and schedule your appointment. Please see the enclosed Portal Information Sheet for details on how to log in to your portal account and the many benefits of using it. Of course, you may still call our office anytime to schedule as well.
